Summary

Backend developer transitioning into AI/ML engineering, with hands-on experience building APIs and production backend systems using Python, PHP, and Flask. Trained in Prompt Engineering and currently applying AI-assisted workflows and Machine Learning engineering tasks alongside backend development. Comfortable managing databases (MySQL, PostgreSQL) and building automation tools. Looking to grow further into AI/ML engineering roles.

Professional Experience

- | | | |
|---|-------------------|-------------|
| React.js Intern, Manureva Digital Solutions | 10/2024 – 01/2025 | Pondicherry |
| <ul style="list-style-type: none">Built responsive web pages with React.js and Bootstrap.Connected front-end components to APIs for data-driven interfaces.Contributed to weekly sprints and team discussions.Optimized state logic for better maintainability. | | |
| Backend Developer (Consultant), Manureva Digital Solutions | 10/2025 – 07/2026 | Pondicherry |
| <ul style="list-style-type: none">Worked as a consultant on a Leave Management System used for internal operationsBackend development using Python with PostgreSQLDesigned and Executed modules for leave requests, approvals, balances, and role changes, Mail senderCollaborated with frontend and management to deliver production-ready featuresHands-on experience in real-time bug fixing, enhancements, and deployment supportTrained in Prompt Engineering and applied AI-assisted workflows for faster development and debugging | | |
| Backend Developer, Manureva Digital Solutions | 08/2026 – Present | Pondicherry |
| <ul style="list-style-type: none">Promoted from Consultant to direct employeeCurrently working on backend development using PHP, alongside Machine Learning engineering tasksApplying Prompt Engineering and AI-assisted workflows to backend and ML development | | |

Education

- | | |
|--|------|
| MCA (Recently completed), Christ College of Engineering, Pondicherry University | 2025 |
| 74.67% | |
| B.Sc. Computer Science, Hindustan College of Arts and Science | 2022 |
| 73.3% | |

Skills

AI / ML

Machine Learning Engineering, Prompt Engineering, AI-assisted development workflows

Languages

Python, PHP, C, C++, JavaScript, HTML, CSS

Database

MySQL, PostgreSQL

Frameworks

Flask, React.js, Bootstrap

Tools

Git

Others

IoT, Arduino

Languages

Tamil: Fluent English: Fluent Hindi: Read/Write

Extracurricular Activities

- Led workshops on Python and IoT.
- Attended device maintenance training.

Projects

Plant Watering Reminder System

Technologies: Python, Flask, SQLite, Email Notification

- Created a web app to notify users when to water plants.
- Implemented email reminders using Flask-Mail.
- Stored and managed plant data using SQLite.
- Built end-to-end using AI-assisted development with ChatGPT.

Touchless Controller (IoT)

Technologies: Python, IoT, Sensors

- Controlled devices using proximity sensors.
- Integrated basic Python logic to trigger responses.

Home Service Web Application

- Developed and maintained a full-featured web platform using Django.
- Built RESTful APIs and dynamic admin/user dashboards.
- Applied secure authentication and role-based access.
- Managed database design, migrations, and optimized queries.
- Collaborated using Git and contributed to deployment documentation.
